Mr. Larry Wilderotter
President
Bedrock Concrete Corporation
801 Hartle Street
Sayreville, NJ 08872

Dear Larry:

I just wanted to drop you a line now that building #1 in Congers, New York is complete. We have done many projects together, and this one was the best. I'm so glad you introduced us to concrete tilt up.

The speed of construction was amazing. I know we had a tight construction schedule, and put a lot of pressure on you to get it done. I really didn't expect to have the shell completed in 14 weeks. I have to say, you exceeded my expectations. Bedrock's crew was very professional and quality conscious.

Now that it's getting colder out, we have the heat on in the building. I can't believe how thermally efficient the building is. We were in the building on a cold and windy day, and the building was very comfortable. We didn't find any cold spots in the whole warehouse. I was also surprised how air tight the building was.

Thank you again for a quality building and meeting all of our expectations. I feel very comfortable knowing you are doing building # 2 in Congers.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Litt". The signature is stylized with loops and a long horizontal stroke extending to the right.
